Plaintiffs

v.

OHIO DEPARTMENT OF
TRANSPORTATION

Defendant

Case No. 2013-00432

Judge Patrick M. McGrath

ENTRY

FILED
COURT OF OHIO
2014 APR -3 PM 1:44

On March 3, 2014, defendant filed a motion to bifurcate or continue the trial scheduled for September 15, 2014. Plaintiffs filed a response on March 17, 2014. In its motion, defendant states that it is still awaiting the medical records it requested from plaintiffs on September 3, 2013, and that the delay in the production of the documents has hindered defendant from preparing its damages case. Plaintiffs state in their response that they intend to provide the documents shortly, which gives defendant nearly six months before the trial to prepare its damages case. Plaintiffs also state that the medical records consist of approximately 7,000–8,000 pages. Upon review, defendant’s motion to bifurcate is GRANTED. The trial on the issue of liability shall proceed as scheduled on *September 15-19, 2014, at 10:00 a.m.*

Defendant also moves to compel plaintiffs to produce the requested medical records. For good cause shown, defendant’s motion to compel is GRANTED such that plaintiffs shall produce any requested medical record not yet produced within 7 days of this entry.
